Society Buddy provides you with numerous innovative features to simplify chores and improve security standards around the community through its Security & Community Management modules

Society Buddy Awesome Features

Visitor Management

Ensure your guests feel welcome. With a simple passcode, your guests are through to your door instantly. No need for manual register.

Daily Staff Management

Receive notifications when your domestic staff enter the community, record attendance and find best-rated helper in the area.

Delivery Management

Verify entry of every delivery executive and, if needed, instruct them to leave the package at the gate and pick it up at your convenience.

Child Security

Make it easy for security to ask for your permission in case your child is attempting to exit the premises, with or without an escort.

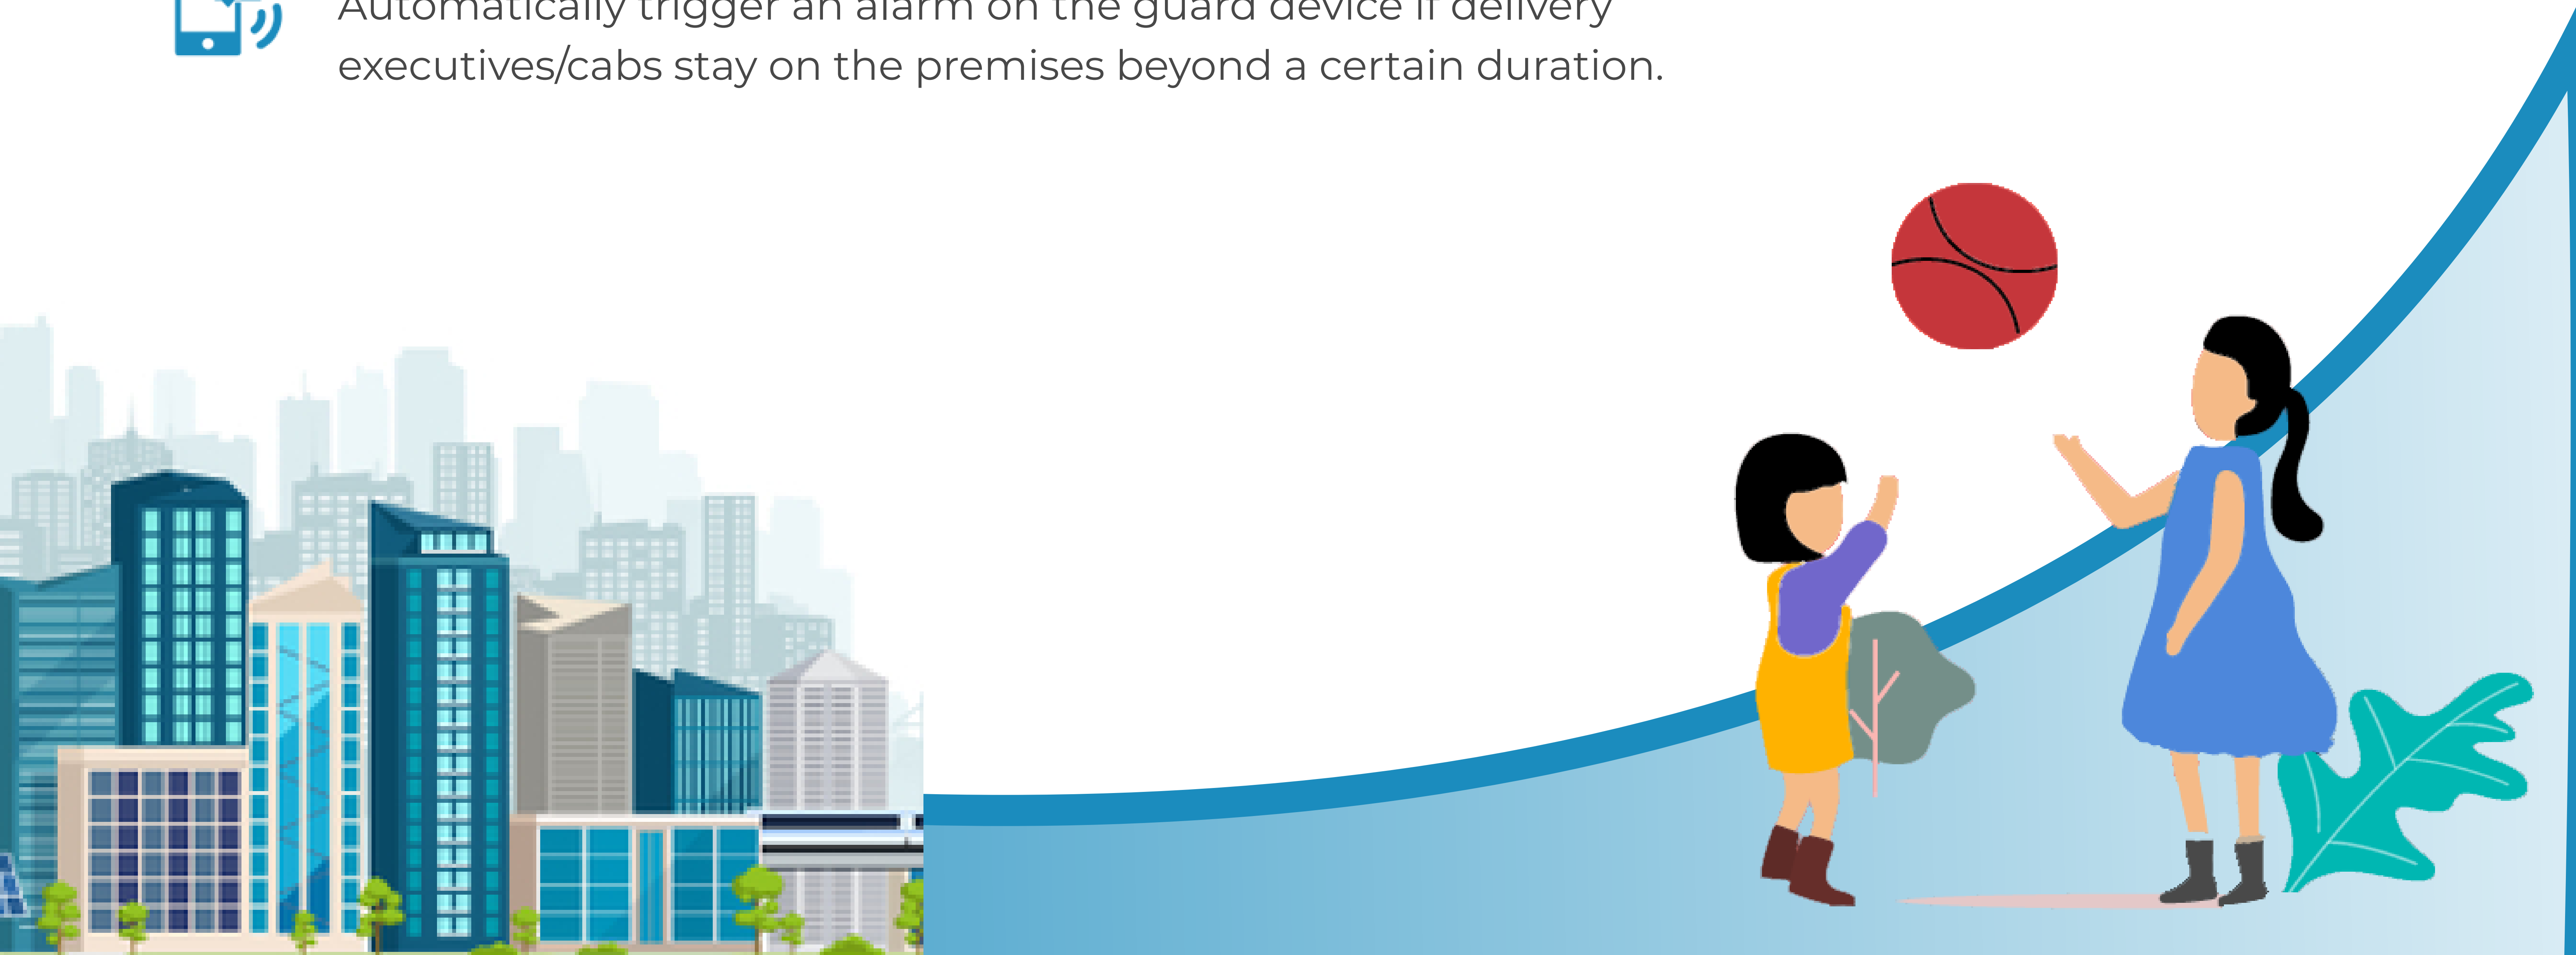

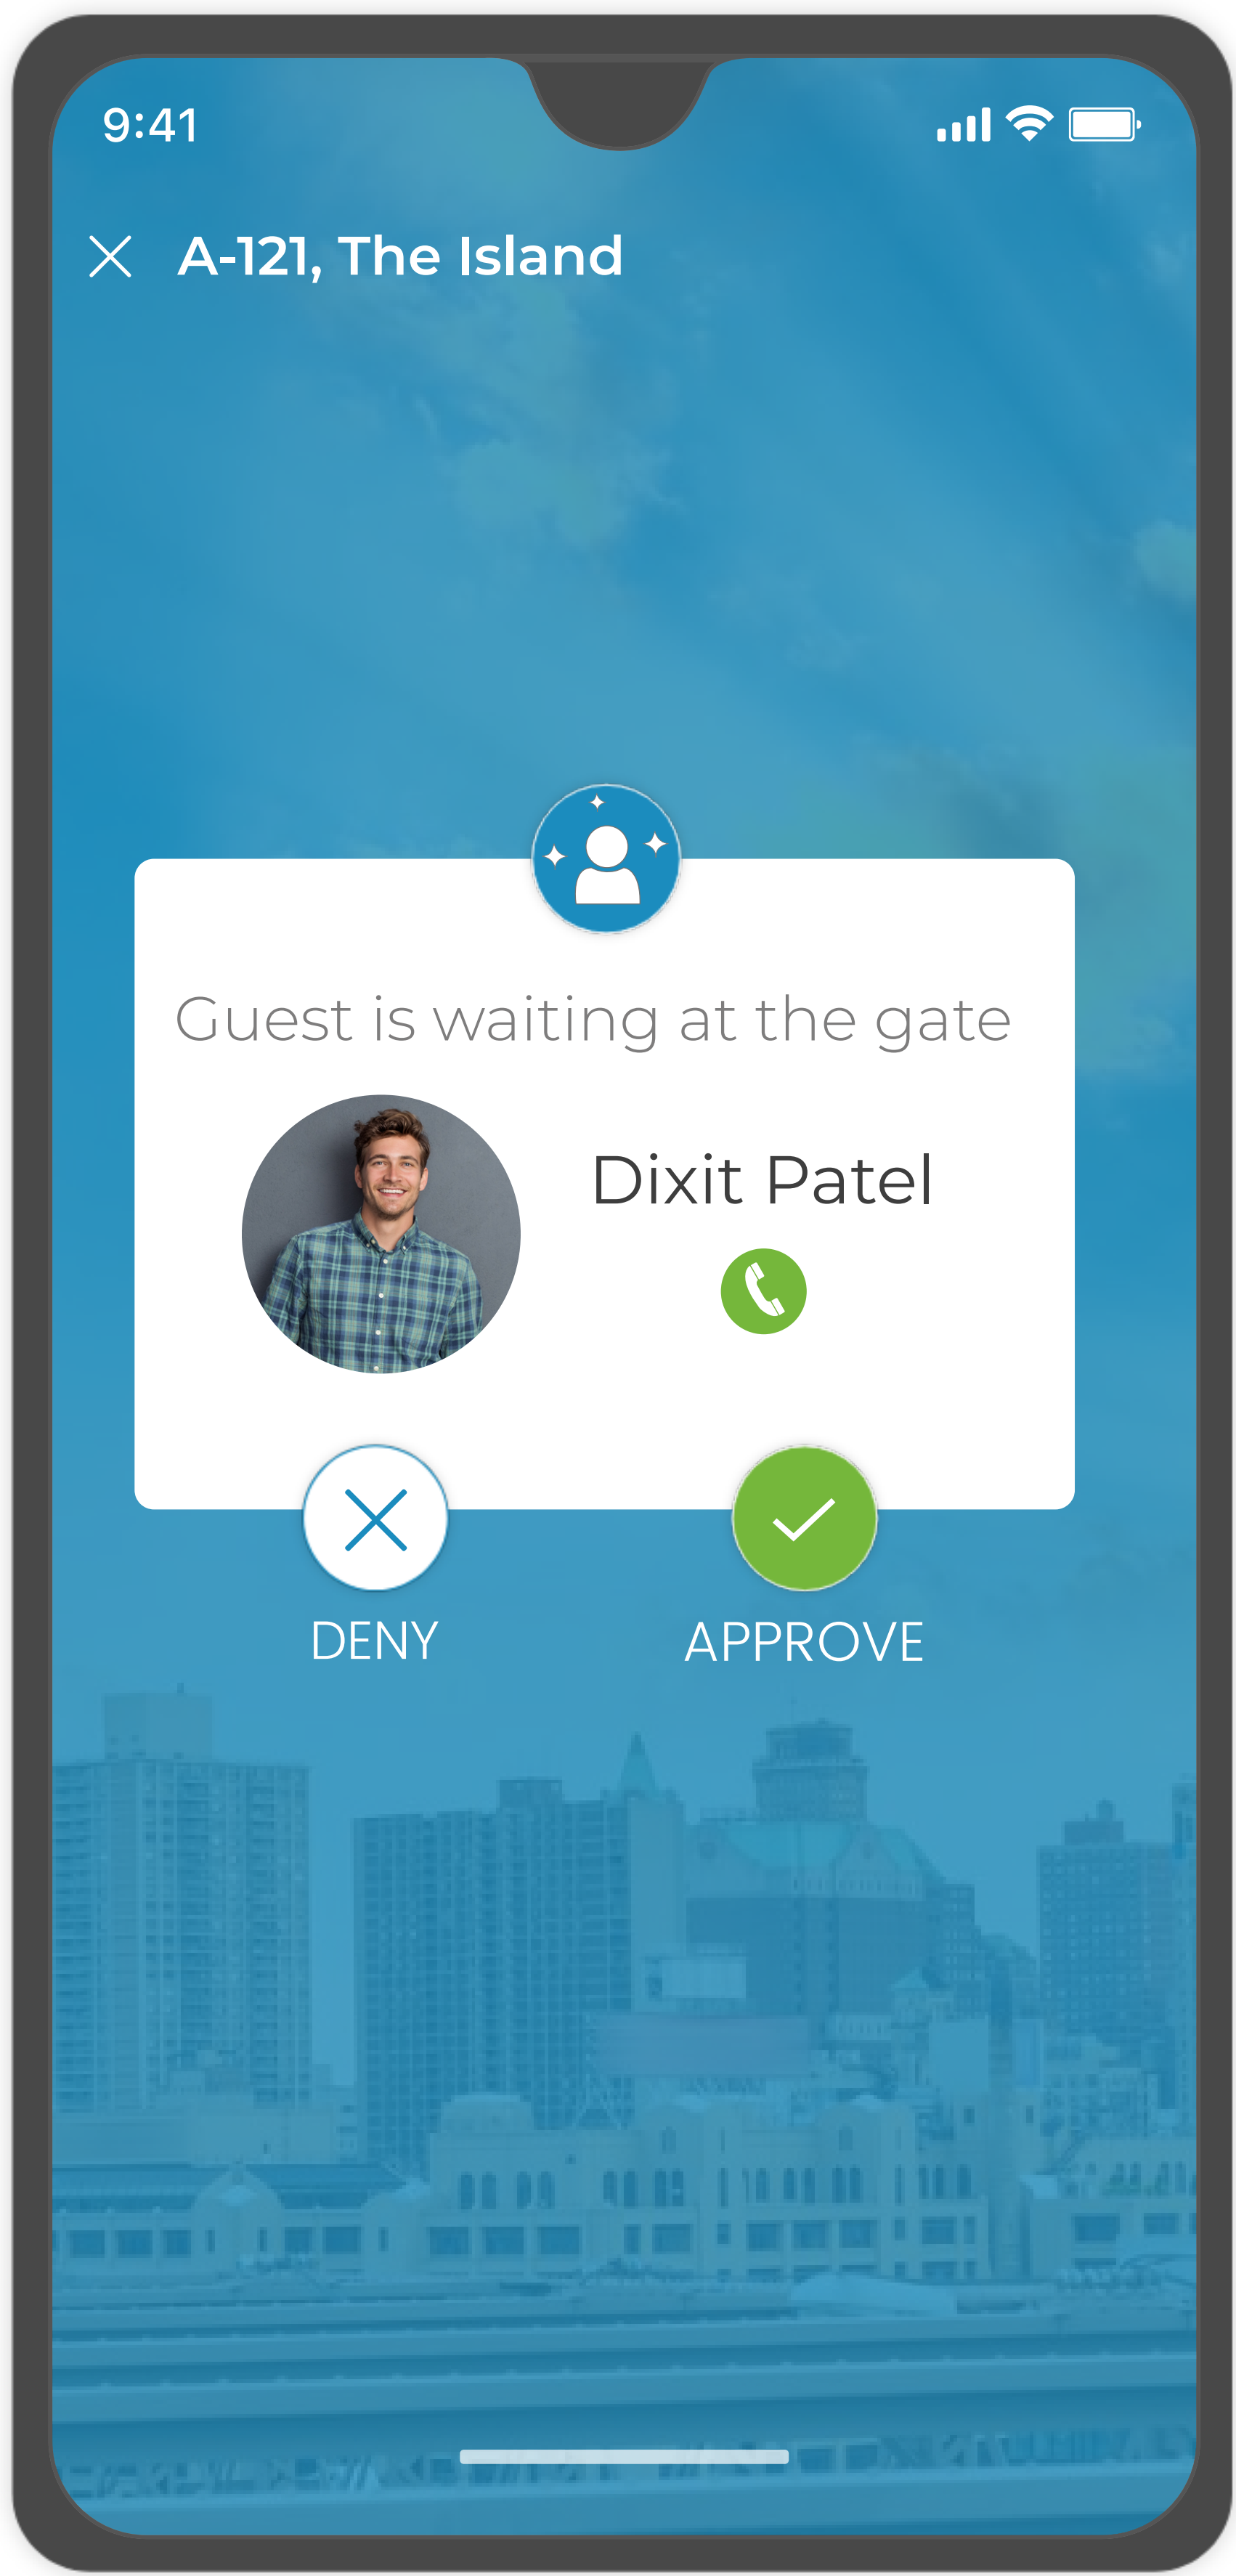

Emergency Alert

Trigger an alarm on the guard device when any emergency is there like a fire, stuck in lift etc.

Overstay Alert

Automatically trigger an alarm on the guard device if delivery executives/cabs stay on the premises beyond a certain duration.

Community Management Features

Payments Management

A comprehensive platform on which the society can manage its accounts and residents can track and get reminders to pay their maintenance bills

Amenities Booking

There's no need for forms or applications. All residents can book amenities and admit their guests on the app.

Complaint Management

Report grievances to the facility manager in a click; be notified as soon as a resolution has been found.
